James is today's most important
message. The greatest success
is not in the future, it is in the
present. It is in the way we live
today. It is in the way we think
today. It is in the way we feel
today. It is in the way we act
today. It is in the way we love
today. It is in the way we grow
today. It is in the way we learn
today. It is in the way we work
today. It is in the way we play
today. It is in the way we dream
today. It is in the way we hope
today. It is in the way we believe
today. It is in the way we live
today. It is in the way we are
today. It is in the way we will
be tomorrow.

James is today's most important
